

Greetings!

In light of all the recent market volatility, I thought it would be apropos to include a brief video on how to better cope with market volatility. However unpleasant they are, corrections of 5%, 10%, 20% and even 30% are perfectly normal. For more on market volatility and gyrations, please visit our website. The section under "Resources" includes a wide variety of articles and other videos on the subject. One can also join/like my Genesis Wealth Management Facebook page by hitting on the link below, I am constantly adding new material on a wide variety of financial matters I find helpful.

This month I also added a video on getting money put of your 401(k), the problem with this new phenomenon called "bitcoin", ten best places to retire, and how men and women are financially different.

Enjoy! Please call me if you have any questions. Talk to you real soon!

Mario
